Projects

Edu Mentor - Teacher Student Appointment System

github.com/thedeepakmaurya/edumentor

React JS, Tailwind CSS & Firebase

- Enables students to book appointments with teachers easily, creating a smooth, stress-free experience.
- Designed an intuitive user interface that's both engaging and easy to navigate.

Blink Eat - Food Order Web Application

github.com/thedeepakmaurya/blinkeat

React JS, Tailwind CSS & Firebase

- Allows restaurants to register, add items, and users to place orders.
- Manages real-time data and ensures secure storage for food orders.

Project Form - Multi Step Project Form

github.com/thedeepakmaurya/multiform

React Js, Tailwind CSS

- A multi-step project form with progress saved to local storage.
- Features lightning-fast, responsive styling that looks flawless on any device.
